2007 - 2008

Secondary School Of Certificate (90.0%)

Project

Covid Dashboard

[project1_link](#)

Technologies used : HTML, CSS, JavaScript, React JS, Recharts, Figma

Developed a comprehensive platform to track Covid-19 cases in India state-wise.

- Utilized React Router for seamless navigation between features such as home, state-specific details, and about.
- Visualized data with dynamic bar charts and line charts using Recharts.
- Brought design to life with Figma mockups and pixel-perfect React components.

Tourism Website

[project2_link](#)

Technologies used : HTML, CSS, Bootstrap

Devised an immersive web experience for users to discover top travel destinations through images, videos, and descriptions.

- Developed a mobile-optimized interface using HTML elements and CSS3 styling techniques, including background, flex, and CSS box model properties.
- Implemented destination galleries and virtual tour videos utilizing Bootstrap carousel and embed components.

My Projects (My Projects Page)

[project3 link](#)

Technologies used : HTML, CSS, Bootstrap

Developed an online showcase of an individual's projects for interviewer assessment

- Crafted the banner segment and project cards with a variety of HTML block and inline elements.
- Refined the website's look with CSS3 methods, including background, flex, box model properties, and a mix of relative (vh, vw) and absolute (px) units.

[project4 link](#)

Technologies used : HTML, CSS

It is my very first project using HTML, CSS. In this project I learnt basics of that and enjoyed deploying them on my own.

MSS Contracting Co (Asst. Design Engineer)

Apr 2014 - May 2015

Chennai, Tamil Nadu

I Was in Resource Allocation Team of Chennai Metro-train Limited (CMRL) sub-contract

Junior Typing speed Test English
